ID	N. pgm	Title	Presenting Author
23/05/2018	15.05 - 16.05	Clinical HIV	
<i>Spalato</i>		<i>Chairs: S. Babudieri, T. Bini, M.A. Di Pietro</i>	
87	PD 1	Role of gender, age and indirect inflammation biomarkers as predictors of first-line cART discontinuation including integrase inhibitors: a longitudinal Cohort Study	<i>Martina Properzi, Brescia</i>
15.05 - 15.10			
278	PD 2	A real-life analysis of dolutegravir adverse effects in a cohort of naïve and experienced HIV-infected patients	<i>Caterina Monari, Naples</i>
15.12 - 15.17			
292	PD 3	Efficacy and correlates of darunavir/cobicistat (DRV/c) based dual therapy: data from multicenter Italian cohort	<i>Mauro Zaccarelli, Roma</i>
15.19 - 15.24			
75	PD 4	Trend of incidence rates of AIDS-related and non AIDS-related tumours in a cohort of HIV-infected persons followed in an Italian hospital from 1998 to 2016	<i>Simona Di Giambenedetto, Rome</i>
15.26 - 15.31			
115	PD 5	Use of TAF with a HIV-RNA \leq 50 copies/mL in clinical practice	<i>Alessandro Cozzi-Lepri, London</i>
15.33 - 15.38			
67	PD 6	Dual regimen with dolutegravir and unboosted atazanavir in HIV-1 infected patients with undetectable viral load and long exposure to antiretroviral therapy	<i>Stefano Rusconi, Milan</i>
15.40 - 15.45			
85	PD 7	Health status and Quality of life in people living with HIV (PLWH): results from the ICONA cohort	<i>Antonella Cingolani, roma</i>
15.47 - 15.52			
23/05/2018	17.45 - 18.45	Social Science	
<i>Spalato</i>		<i>Chairs: M. Oldrini, L. Rancilio</i>	
54	PD 8	HIV prevention project in Cagliari schools: EducAids survey	<i>Giacomo Dessì, Cagliari</i>
17.45 - 17.50			
82	PD 9	One year on the road to Meet, Test and Treat Sex Workers in Rome: a reparative psychological experience	<i>Laura Rosi, Rome</i>
17.52 - 17.57			
214	PD 10	Implementation of HIV infection Hospital-based active case finding: results from the SHOT project	<i>Maria Sabrina Mameli, Sassari</i>
17.59 - 18.04			
156	PD 11	PrEP between desire and real needings	<i>Alberto Bignardi, modena</i>
18.06 - 18.11			
134	PD 12	Health knows no boundaries	<i>Mariangela Errico, Napoli</i>
18.13 - 18.18			
48	PD 13	HIV test in an association: considerations on women's habits	<i>Alessandra Bianchi, Milano</i>
18.20 - 18.25			
149	PD 14	Let's start talking about HIV again	<i>Alessandro Battistella, Milano</i>
18.27 - 18.32			
12	PD 15	On-line against HIV. Information and training service about HIV/AIDS/STD; Assistance and psychological support for people struggling with HIV and their families	<i>Rosario Galipò, ROMA</i>
18.34 - 18.39			
23/05/2018	17.45 - 18.45	Immunology	
<i>Pola</i>		<i>Chairs: F. Baldelli, L. Calza, G. d'Ettore</i>	
72	PD 16	Thymus is the barometer of aging in HIV patients, associated with metabolic syndrome and frailty	<i>Giovanni Guaraldi, MODENA</i>
17.45 - 17.50			
118	PD 17	B cell effector molecules modulation after ART interruption in chronically HIV-1 infected subjects with long-lasting virological suppression (APACHE study)	<i>Claudia Pastori, Milan</i>
17.52 - 17.57			
224	PD 18	Modulation of gut microbiota improves zonulin level and integrity of enteric mucosa	<i>Paolo Vassalini, Rome</i>
17.59 - 18.04			
170	PD 19	Plasma levels of bacterial 16S rRNA gene correlate with percentage of CD8+ T cells in HIV+ patients who underwent therapy interruption	<i>Simone Pecorini, Modena</i>
18.06 - 18.11			
43	PD 20	Analysis of faecal microbiome during analytical treatment interruption in subjects with HIV cronic infection and long-lasting virological suppression (Apache Study)	<i>Silvia Nozza, Milano</i>
18.13 - 18.18			
196	PD 21	Peripheral blood NK cells phenotype associate with evolution of HPV ano-genital lesions	<i>Federica Bozzano, Genova</i>
18.20 - 18.25			
174	PD 22	Alteration of V γ 9 δ 2 T Cells and dendritic cells in HIV/HCV co-infected patients after successful treatment with Directly Acting Antivirals	<i>Eleonora Cimini, Ardea</i>
18.27 - 18.32			

Elenco Poster Discussions

ID	N. pgm	Title	Presenting Author
24/05/2018 10.10 - 11.25 Comorbidities			
<i>Spalato Chairs: D. Ripamonti, A. Saracino, G. Sterrantino</i>			
194	PD 23	Fecal/plasma microbiota and cardio-metabolic risk factors in a cohort of HIV infected patients naïve to Antiretroviral Therapy (ART)	GIUSEPPE ANCONA, MILANO
141	PD 24	The impact of HIV infection and antiretroviral therapy on aortic distensibility: meta-analysis of observational studies	Giovanni Mulè, Palermo
89	PD 25	Longer Duration of HIV is associated with higher risk of Falls in an HIV ageing cohort	Iacopo Franconi, MODENA
235	PD 26	Declining prevalence over time and factors associated to HIV-associated neurocognitive disorder (HAND) in ART-treated HIV-infected individuals	Ilaria Mastroso, Rome
249	PD 27	Pleocytosis and increased Cerebrospinal Fluid (CSF) neopterin level are associated with Blood Brain Barrier (BBB) damage in HIV positive patients	Carmela Pinnetti, Rome
80	PD 28	The prevalence of cerebrospinal fluid HIV escape varies according to different definitions and underlying comorbidities	Mattia Trunfio, Torino
209	PD 29	Liver transplantation from HIV+ donor to HIV+ recipient: a case report	Giovanna Travi, Milano
185	PD 30	Oral HPV infection in HIV-positive MSM and its persistence	Alessandra Vergori, Rome
31	PD 31	Dolutegravir-related neuropsychiatric adverse events evaluated by patient reported outcomes: an ePROS project sub-study, final results	Carlo Pallotto, Perugia
220	PD 32	Efficacy and safety of dolutegravir-based combination antiretroviral therapy in clinical practice in advanced HIV-infected naïves: results from a multicenter study	Barbara Rossetti, Siena
24/05/2018 13.45 - 15.00 Hepatitis			
<i>Spalato Chairs: V. Cento, A. Giacometti, G. Starnini</i>			
83	PD 33	HCV seroprevalence and associated risk factors in a cohort of people who use drugs screened with rapid tests in Rome: the hidden epidemic	Elisabetta Teti, Rome
258	PD 34	Preliminary results about HCV care cascade among PWID in Rome: "Una regione senza la C" project	Laura Campogiani, Rome
70	PD 35	Implementation of HCV oral testing in correctional facilities: experience from Minors and Adult detention centers in Milan	Francesca Iannuzzi, Milan
173	PD 36	Characterization of transmission clusters in DAA naïve HCV infected individuals in Rome	Lavinia Fabeni, Rome
114	PD 37	Prevalence of Hepatitis B and C viruses and Human Immunodeficiency virus infections in irregular and refugees migrants in southern Italy	Margherita Macera, Napoli
266	PD 38	Treatment of hepatitis B virus-infected pregnant women for the prevention of mother-to-child transmission	Sara Lardo, roma
33	PD 39	Treatment with PEG-IFN in a cohort of immigrant patients affected by chronic hepatitis delta: a longitudinal analysis	Lucio Boglione, Torino
162	PD 40	The combined evaluation of HBV serological markers can predict intrahepatic HBV reservoir and the degree of liver fibrosis in HBeAg-negative Chronic Hepatitis B Infection	Romina Salpini, Rome
25	PD 41	Genotype I Hepatitis A virus introduction in Italy: Bayesian phylogenetic analysis to date different epidemics	Caterina Sagnelli, Naples
279	PD 42	Modification of cardiovascular risk and renal function in HIV/HCV co-infected patients treated with DAAs	Ambra Barco, Torino
24/05/2018 13.45 - 15.00 Basic science and virology			
<i>Pola Chairs: P. Bagnarelli, S. Parisi, M. Santoro</i>			
76	PD 43	Prevalence of polypharmacy and potential drug-drug interactions in PLWH: a cross sectional study from the Modena HIV Metabolic Clinic cohort	Alessandro Raimondi, Modena
45	PD 44	Loss of control of HIV viremia with OTC weight-loss drugs: a call for caution?	Dario Cattaneo, Milano

Elenco Poster Discussions

ID	N. pgm	Title	Presenting Author
46 13.59 - 14.04	PD 45	Evaluation of the pharmacokinetics of psychotropic drugs in HIV-infected patients: implications for clinical practice	<i>Dario Cattaneo, Milano</i>
199 14.06 - 14.11	PD 46	Drug plasma trough concentrations during treatment with daclatasvir and sofosbuvir are associated respectively with liver impairment and with renal dysfunction in HIV/HCV co-infected patients	<i>Massimo Tempestilli, Rome</i>
257 14.13 - 14.18	PD 47	Characterization of treated acute HIV-1 infections with late or absent seroconversion	<i>Roberta Gagliardini, Siena</i>
294 14.20 - 14.25	PD 48	Ultrasensitive p24 digital ELISA can lead to an overestimate of HIV reservoir size	<i>francesco roberto Simonetti, Baltimore</i>
167 14.27 - 14.32	PD 49	Evaluation of HIV-1 integrase resistance emergence and evolution in patients treated with integrase inhibitors	<i>Rossana Scutari, Rome</i>
146 14.34 - 14.39	PD 50	Persistent low level viremia: the grey zone between virological success and risk of failure in clinical practice	<i>elisa balletto, genoa</i>
222 14.41 - 14.46	PD 51	HIV-DNA dynamics after ART interruption in chronically HIV-1 infected subjects with long-lasting virological suppression (APACHE study)	<i>Claudia Alteri, Rome</i>
91 14.48 - 14.53	PD 52	Comparison of resistance mutation patterns between current proviral HIV DNA genotype and historical plasma HIV RNA genotype in multi-experienced HIV-positive patients	<i>Maria Aurora Carleo, Napoli</i>
